First name: Mark

Last name: Houlden

Organization:

Title:

Comments: I wholly support this project and look forward to riding these trails in the future. We riders spend money when we come into your communities and therefore add to your local economy. Many of us belong to riding groups that also promote responsible use of public lands. Many of our riding areas are in the middle or northern section of the state this would be a wonderful addition to include the rest of Arizona.
