Comments: I have lived on the Olympic Peninsula for 30+ years and do go into ONP and ONF. This is an objection for when and if you change the plan to remove the goats from the Olympic National Park and Olympic National Forrest. I think this is a good plan. The NFS and the NPS need to do this once and for all. This comes up every decade or so and a lot of time and money gets wasted until someone thinks enough people object. Then NPS and NFS back down because it thinks it is what the public wants though it's a very few objections. This is a good plan and it should implemented! Please follow through!
