First name: Gary

Last name: Marsden

Organization:

Title:

Comments: I farm and ranch in Eastern Idaho, owning forest and creek property.

I feel we who make our living from the land and water resources are being pushed around by minority groups to the point we have to say NO and have our voices heard.

"Wild and Scenic" is fine if you are the big spenders not making a living farming, ranching, minning or logging.

Please consider others livelyhoods on these decisions.

Thank you

Gary Marsden
