First name: William

Last name: Lewis

Organization: Southern Plains Land Trust

Title: Member

Comments: There is little so important at this juncture in time regarding the saving of wildlife and the lands on which they live and survive. The loss of wildlife continues to skyrocket and unless we hard to see that they thrive than much of what we cherish and what we realize what wildlife does to help our earth maintain its viability will be lost and in the end humans will be the most worse off without the wildlife and everything they bring to our lives and to the health of our wildlands.
