Comments: I vehemently object to the proposal for the mountain coaster at its current location. The section of Bristlecone Trail impacted by this coaster is the most beautiful section of the trail. Wild horses use this area as well as hikers and bikers. It is a trail where one can enjoy the peace and quiet while hiking and snowshoeing, the change of seasons the Aspen trees celebrate, and seeing wild horses. Move the coaster to a ski run that is already developed. Please do not spoil the Bristlecone trail with this contraption.
