Comments: this is an attempt to plan to devastate this foreg for logging, grazing. this vicious agency wants to destroy the forest owned by 328 million americans for moneygrubbing. this isnt a plan - its an attempt to see what they can get away with and what the american people will stand by and let them get away withi oppose the thinnning. regeneration is not working. you have logged too mahy times. best to stay out of the forest entirely and just keep the people and animal murderers out of this forest. your footprint disltrubes all vegetation and all animals. i definitely oppose this plan
