Comments: This is a ridiculous request. In 20 years, I have never seen a lack of snow on the top of Lodgepole. Maybe on Adams Avenue only but not on the Alpine Springs runs themselves. If they are asking for snow for Adams Avenue that might make sense where it crosses these runs, but the runs themselves never lack snow. HOWEVER, please consider snowmaking somewhere in the Two Creeks area instead of the always available Alpine Springs runs. Allowing for snowmaking and uploading/downloading all season at Two Creeks will alleviate congestion at Base Village and require MUCH fewer cars to drive to the base thus helping the environment. Three large neighborhoods and the Snowmass Club all utilize Two Creeks, and keeping the Two Creeks lifts running will keep them off of the roads all season long.
