To: District Ranger

From: David Reddick and Susie Reddick

We have reviewed the map for reducing fuels around Edwardsburg. We approve of the general plan and appreciate your efforts in its development. As specific plans are developed, we expect you will keep us informed. We are presently on your email and mailing lists.

It is likely you will need to cross private property to access forest land for their project. Please accept this as authorization for U.S.F.S. employees to walk across our property and drive on the existing driveway. Should you require access than this authorizes, please contact us.

Regards,

/s/ David Reddick
