Title:

Comments: I fully support responsible equal opportunity use of our surrounding backcountry areas. I am fortunate to have had the opportunities to see things that most don't get the chance to. I literally live for the chance to ride my snowmobile in the winter and to ride motorcycles in the summer. The majority of my riding areas fall into these areas that may be potentially deemed wilderness. I always preach responsible use in the backcountry. I fully oppose these plans to increase these designated wilderness areas. Everyone should have access to these lands to be able to responsibly enjoy them as they see fit.

Thank you,

Chad Horkan
