Comments: In the 1980 and 1993 Colorado Wilderness Acts, Congress mandated no buffer areas around Fossil Ridge, Collegiate Peaks, Uncompahgre, Powderhorn and Raggeds Wilderness areas but this restriction on Wilderness designation is omitted in the inventory. Many parcels such as G14, G15, and G24 which are adjacent to these Wilderness areas identify the parcels ability to serve as a buffer to the adjacent Wilderness areas as a positive factor for listing without even mentioning the Congressional restriction on buffers. This is a serious defect.

There is no history of the "Citizens Conservation Proposal" Wilderness for the GMUG. Land managers need to explain what this document even is, how it was vetted and found sufficient to move forward in the evaluation and inventory process before listing it on the inventory mapping for the Forest.

The selection of several of the SMAs seem specifically designed to quash existing MVUM motorized use trails. As a Colorado resident and user of these trails, I strongly object.
