Comments: I have lived in Tuolumne county my entire life . Raised in me Wok , Stanislaus national forest has always been a big part of mine and my families life . From fishing ,hiking ,snow skiing ,and dirt biking . I have been an avid snowmobiler for the past 20 years , what a great recreational sport hiking the same area in the summer is not the same the Stanislaus is so beautiful when it is covered in white and only a snowmobile can get you there . I believe nothing should be changed on the maps especially the higher elevation we need deep snow ,snowmobiles are only evolving any elevation 8 to 9000 should not be taken away at all if anything we need to add more land . Confining us to a small space is a bad idea it is very unsafe ,accident waiting to happen when everybody rides the same trail and can't spread out . I think there can and should be a good balance between the two sports but we have so little to ride right now nothing should be changed . I snowmobile hearing creek Eagle Meadows Sonora pass and the highway four Corredor the most and I believe nothing should be changed on any of these areas . I believe these people suing to take our land away from us are not even from the area.Snowmobilers bring a lot of money to the community in the struggling winter months for the businesses here , from gas to lodging to food , registration and snow park pass fees
