Title:

Comments: I am a avid back country skier around highway 108 where snowmobilers often ride. The presents of the snowmobiles give me a sense of safety and security. Knowing they are often around is of great comfort for some of us who snowshoe, hike and ski the areas. There knowledge of the area and conditions is of great help as well (where conditions are good or unsafe). I know of a couple insidenses where the snowmobilers have assisted in search and rescue operations or have just helped locate people. The snowmobilers knowledge and presents in the backcountry in critical for all of our safety. Loosing snowmobilers would be a great lose. We can all share the back country responsibly
