Comments: Wayne NF plan

To whom it may concern.. Please STOP the seemingly endless destruction of our Wayne National Forest. It is so impacted now that what remains is hardly recognizable as such. As a life long resident of Southern Ohio, I have watched in amazement as one administration and land use plan after another comes and goes, leaving wasteland and permanent scars behind while honest citizens try, to little avail, to PRESERVE what remains. WE intend to NEVER SURRENDER. Thanks for your consideration... J.E.Sullivan
