Title:

Comments: As a member of the Olympia Mountaineers I have done trail maintenance on the Church Creek trail for approximately 10 years. We see hikers, bear hunters, fishermen at Satsop Lake and even a mountain biker who came over from the SKokomish River side. I ask that you keep the access road (1231??) on the Lake Wynoochee side open and maintained. Users access the trail from both sides of the darianage.

Thank you.

John Sisco
