Comments: So i was sitting here thinking about all the areas that need to stay open . Why does any of it need to change . I thought the lawsuit just had to file the new plan , so dont close any of it . Talking to one of the environmentalist i know he kind of chuckled and said we are fighting a losing battle because the forest service was in the most part in their back pocket . I definitely didnt find it to fun. We have only a small area to ride in the vast forest and yet they still dont have enough. We ride we theres no cross country skiers. I choose keep it the same and respect and share for all to enjoy . Please keep it all open for generation to enjoy!!!!
