Comments: I have traveled twice to ride these areas. (Sonora Pass Mount Rose) When ever these issue come up no one brings up the economic impact to small towns and businesses that are negatively impacted. It is a shame the sheer greed land grab by political activist that will not be happy until no one has access anywhere in any form. ?? My friends and I specifically drove to these areas and spent \$10,000 in a week. Most of you believe we Snowmobilers are anti environment! Nothing is further from the truth we are there because we love the wilderness. Our argument is to protect the access we have!
