Comments: Please do not close any snowmobiling trails this is an awesome sport which over 20 + yers have brought many joys to my family. There have been enough trails closed already. The new snowmobiles can go farther which means we need more space. If anyone that ever goes to the backcountry there is plenty of space I never see anyone where we ride . This sport is not for everyone but a lot people enjoy goin places they would never go without a snowmobile so please keep accessible for all because studies have proven they do not disrupt the vegetation below snow and leave no trace ! Sincerely Matt
