Comments: I have reviewed the proposals. Although I have snowmobiled for 25+ years in the Highway 108 area, I am not completely familiar with all the areas described. But I am very knowledgeable with most of the terrain. I seems the proposal eliminates much of the areas that are almost impossible to access anyway. I don't understand a need for new rules in areas where no one visits?!

It is very important the isolated areas approved for snowmobiling have multiple interconnecting corridors to provide access from different directions.

Long trail paths need areas to rest, lunch, recreate enroute to destinations.
