Title:

Comments: We own a cabin on private property on Eagle Meadow Road 5NO1 past Haypress Lake that we will no longer be able to legally access in the winter under the Alternative 5 plan. The Alternative 3 plan would cut winter access to many more cabin owners in Eagle and Long Valley. What criteria is the Forest Service using to allow access to the cabins in Eagle and Long Valley but not a mile away on the other side of the hill between Haypress and Relief Reservoir?

We should have the ability to ride where we have ridden for decades, all of Eagle Valley and Long Valley, from the northern boundary of Emigrant Wilderness, to Relief Reservoir, to Kennedy Meadow and Haypress Lake.
