Comments: Hello,

I urge conservation. I urge precautionary principle. I urge thoughtful, Earth-loving action. I urge paying attention to what's happening on this Earth and doing everything possible to preserve what we have.

Alternative 3 is the obvious Earth-loving choice here. Look children in the eye and be proud you chose Alternative 3. Look children in the eye and tell them you protected the Sierra Nevada red fox and quiet. Look children in the eye and tell them you protected the Pacific Valley and Eagle roadless areas.

Thank you for protecting the gifts of fox, Earth, quiet.
