Title:

Comments: I oppose the Forest Service's preferred Alternative 5. Please do not allow over-snow vehicles in the potential Carson-Iceberg and Emigrant wilderness additions.

- 1.Noisy snowmobiles will destroy the quiet solitude of these areas.
- 2.Over-snow vehicles threaten wildlife, including a newly discovered population of Sierra red fox.
- 3.Allowing over-snow vehicles would preclude these areas being considered for future wilderness additions.

Alternative 3 is the best alternative.
