Title:

Comments: I oppose "Alternative Plan 5" for the Stanislaus Forest OSV Recreation Plan. These loud machines disrupt the quality of the Pacific Valley and Eagles Roadless Areas.

With almost 8 BILLION humans on the planet, ALL wildlife is struggling to survive, especially in the harsh winter months.

Soon "America the Beautiful" will be no more. Especially with more of our species driving LOUD and polluting motor vehicles through pristine parts of the forests.

This native Californian urges you to adopt "Alternative Plan 3".
