Title:

Comments: I support the recommendations as proposed with the addition of necessary signage and enforcement. I used to live in Camp Connell, now I visit (and spend money) in the winter *specifically* because of this area and the backcountry ski tours available. Snowmobiles are both dangerous to skiers as well as noisy and smelly. Thank you for this use designation proposal. The snowmobiles can go out Highway 4 and they have Bear Valley once it is closed for the season.
