Title:

Comments: We have had a home in Bear Valley for over 40 years and have watched the area struggle each year because of the economy, weather, fires etc. The winter is the biggest season for Bear Valley and all the little towns down Highway 4 corridor are dependent on the ski area, snowmobiling etc. For the people that don't ski, snowmobiling is the only reason they come to this area, therefore, we strongly oppose restricting snowmobiling. The economic effect will be catastrophic. Ron Rossi
