Comments: The pure joy and tranquillity that one gets while snowmobiling and doing winter sports is one of a kind. There is endless opportunitys being able to explore on a snow machine and taking away and limiting the areas we can ride is not only an inconvenience, against our rights but it is also a huge heart breaker to our citizens. Snow machines are growing in popularity and they are great way to get the family outdoors and even reaserch things live snow pack and wildlife. Please from one citezen to the next, do not limit our areas to ride.
