Comments: Please do not close any of our public lands in the Stanislaus National Forest to OSV. I am a local Who enjoys going out and having fun on my snowmobile with friends and family and those beautiful areas. We do not destroy the land and leave very little trace. I have never witnessed a cross country skier very far out in the wilderness and certainly have never witnessed a altercation between snowmobilers and any skiers or snowshoers. It is an important part of our economy here in Southlake Tahoe and our winter fun to have access to these areas. There is plenty of space out there for everyone there is no need to close thist area to us. Thanks,
Pete
