First name: Mark

Last name: Jacoby

Organization: Mountain Megabytes

Title:

Comments: Please allow crosscountry OSV use in the Lookout Mountain and area open from the Bull run, through Henry Peak up to the Wilderness boundary near Peep Sight Peak. Please include the ridgeline above Eagle Meadows at the wilderness boundary from Waterhouse lake, up to include Cooper peak, to Castle Rock to the Three Chimneys. This zone has very desirable features to the backcountry Mountain Snowmobilers.
