Last name: Jacoby

Organization: Mountain Megabytes

Title:

Comments: Please designate the Herring Creek Loop area open to cross country OSV use. This area has extensive very desirable terrain for BackCountry Mountain Snowmobilers. Willow Meadow area as well as Hammil Canyon Please include the peaks, slopes, drainages and all hillsides. I understand there may be sensitive frog habitat in one or more of the meadows in this zone, but by the time the snowpack gets to where they come out of hibernation, OSV use in the area will likely be over for the season. We will in general, be several feet above these sensitive wetlands on top of the snowpack. Additionally, there are extensive Wilderness opportunities for non motorized use almost completely surrounding this zone.
