Comments: Cheryl Probert,

I am happy to send an email in support of allowing motorized and mechanized vehicles in the great burn area. I support alternative "Y" however I firmly believe that Surveyor should be included and managed for winter motorized use as well.

I love all outdoor activities. I ride snowmobiles and mountain bikes. I enjoy kayaking and white water rafting on the snake river. I enjoy snowboarding, hiking, camping, fishing, and picking huckleberries. Being in the outdoors is a wonderful experience. Each and every way I go into Idaho's beautiful outdoors, opens a whole different experience which makes it most enjoyable. There is an amazing feeling riding a snowmobile through deep powder and being deep in the back country that is to difficult to access any other way. Being on the water when it is blazing hot. Eating a handful of huckleberry after finding the secret spot. Allowing access to multiple groups is so important and is one of the many opportunities that make Idaho such a great place to live!

Thank you

Colby.Ricks
