Comments: I just wanted to write and thank you for your efforts to include all types of users in your new management plan. I love Alaska and love experiencing it's extreme beauty, weather it be hiking, hunting, or snowmobiling. I don't ski because of various leg injuries that I've received over the years, but I do love to access the back country with a snowmobile just like my skier friends. My hope is that you would find a way to include snowmobiles in your plan for us and future generations to enjoy Alaska. Alaska is a land that belongs to us and should be shared equally by everyone. Thank you for your time and your consideration. May God bless you in your endeavor to keep Alaska free!
