Title:

Comments: Gentlemen: Target Range Project located in the Blue Ridge Ranger District of the Chattahoochee-Oconee National Forest. It seems like a great plan. This will improve safety concerns for the public. I'm always concerned about other outdoor enthusiast, random target shooting when out in these beautiful lands. The proposed cost sharing concept with the different entities seems brilliant while the title will remain with the Federal Government, I'm assuming USDA, Forest Service. Definitely a Win/Win
