First name: Phil

Last name: Locker

Organization:

Title:

Comments: Please do not take our riding areas away. The land use is for all of our users to enjoy both motorized and non. You have our regulations in place and monitored and there is no reason to turn Alaska into the planet of California. Keep the zones in place the way they are please. If you close these lands you might want to consider closing helicopter skiing as well and everything that goes along with the joy of living in Alaska.
