Comments: I grew up riding either talkeetna mtns or lost lake. I have got to say Lost Lake is one of Alaska's best all around riding area hands down. Now that I'm an adult out on my own paying to play the game of ride as much as I can everywhere I can I don't want to see any of our motorized areas limited or even shut down I know there are always going to be the rotten eggs of the scene that give us all a bad name but the rest of us usually try to pick up the slack of our peers in the sport. Fire house trail is such an amazing hick in the summer too! Summer months help give us an advantage on extra clean up from negligence on sledgers too! I love all of Alaska and all of the great places to ride here. Let's find a way to keep all places open to motorized use!
