Comments: To whom it may concern, I would love to see more areas opened to motorized use during winter as adequate coverage allows as I personally use the kenai peninsula for motorized use over most areas! Minimum 3-4 times a week for personal fun and beautiful views and relaxing time with friends from a long week I support plan b as do all of my favorite shops and friends that ride these places turnagain, 20 mile, placer lost lake Johnson's pass are used regularly by me and my group of friends for good clean fun. we all work hard to go have fun in these places! Please

Keep our places open as we organize clean ups and everything else for the places we all love thank you

Sincerely Darren
