Title:

Comments: I am a Locally interested Resident of 10 years. Lost Lake and area's alike are why I reside here in Alaska. I enjoy them for winter motorized recreation the most and I have great confidence in the Recreation Opportunity Spectrum (ROS). I have read and AGREE with the 34 interdisciplinary preparer's information to be accurate. I believe the assessment / evaluation of Ecological, Economic and Social conditions should be reviewed every 10 to 15 years as the National Forest Management (NFMA) intended. I am opposed only to any future amendments concerning changes to the existing regulations on motorized recreational vehicles.
