Title:

Comments: Hello, My Name is Thomas Allen.

I have lived in Alaska for over 40 years now and have responsibly enjoyed its environment the entire time I have been here. I typically snow machine in the Chugach area 3 to 4 times a year and would be vehemently oppose any additional restrictions to that freedom. My friends and I are firm practitioners of "pack it in, pack it out" and have utilized our Alaska resources responsibly for decades.

The rights of motorized user groups have already been severely restricted since 2002, these restrictions must stop, so that future generations of Alaskans can continue to utilize the resources that are theirs rightfully. Please do not impose any additional access restrictions that would stop Alaskan from responsibly enjoying Alaska.
