Title:

Comments: I was born and raised in the chugach national forest. I currently own and operate a business within the national forest. Growing up with motorized access in some of the most beautiful places in alaska shaped the way I live. Having motorized access to the many backcountry areas around my home in moose pass gives me the opportunity to enjoy backcountry access from my back yard. I love these places. I respect these places. I cherish these places and the means we are currently allowed to reach these areas.
