Title:

Comments: I am a supporter of plan B. The Chugach national Forrest has been a huge part of life. I use the trails in the summer time biking and hiking. I also enjoy snowmachining with my friends and family. I remember my dad doubling me up when I was just a kid up to lost lake on a snowmachine. I just remember being amazed with this awesome area to ride. Lost lake has been one of my go to spots since. East fork of snow river corridor needs to remain open as well. This is another area that benefits from motorized use. Trails that are put in make it easier for emergency personnel to respond to emergencies. Motorized use has an important and positive impact on our community. Snow machines are purchased along with gear and parts. This creates jobs in the community. This is a way for people to get outside in the winter time and enjoy what Alaska has to offer. I would not like to see any more areas shut down to motorized use. Thank you for your time.
