Comments: To whom it may concern. After reading and discussing the forestry revisions plan I'm concerned with several of the possible outcomes. As a life long Alaskan I value our resources and have lived in both rural and urban parts of the state. As someone who both supports our many outdoor activities both motored and both nonmotored I also support the idea of preserving or regulating certain aspects of the land we live in and use. I enjoy both snowmobiling and snowshoeing in the winter and hiking and hunting/fishing in the summer. I've used the areas set forth in the revision for many of these things and have respected the boundaries and off limit areas. At this time I feel the areas designated "wilderness" are sufficient and do not need to be changed at this time. I feel that plans C/D laid out in the plan would be more harmful to several of the outdoor communities than helpful and would mostly serve the non-motorized cumminity. At this time I feel Plan B is more than sufficient if changes must take place. Thanks for consideration. - respectful and responsible snowmobile enthusiast.
