Comments: Good afternoon, after reading through the literature I would like to add my support to plan / option "b" I have enjoyed winter / motorized recreation in the chugach since 1998 - I have started bringing my son on trips to turn again pass as well as placer valley in the last few years as well.

Living and recreating in Alaska with motorized access I value to the highest degree- I support keeping open as much areas as possible for motorized recreation as a result.
