First name: Troy

Last name: Summers

Organization:

Title:

Comments: Please do not close any further areas. We are already struggling to find places and land to use. I and everyone I ride with respects the land, wildlife and the environment. Please do not shut it down. We deserve to be there just as much as anyone else. We are all humans whether its with a machine or not. And to allow trappers to use the land but not us is wrong. We all deserve to be happy and enjoy Alaska, we all have our own ways of doing it and riding and exploring is our way. Don't take that from us.
