Comments: It is important to protect the wilderness status of the Nellie Juan-College Fiord Wilderness Study Area. We don't have many such areas left, and they are very important and precious, for study, for the environment, and for the people who enjoy being out in the quiet wilderness. Please choose Choice D to preserve as much of this wilderness as possible. Please limit the people who are damaging the forest by cutting wood and taking other destructive actions in the forest. This is important for our future!
