Title:

Comments: My name is Tyler and I've been an avid Chugach explorer all my life. I remember the first rides I would go on with my dad when I was 4 on my snowmobile. Each year wether it's snowboarding, skiing, or snowmobile riding the winters are filled with trips down to the Chugatch almost every weekend. Even in the summer time the blueberry picking is perfect. I am commenting here because I would very much like to see the continuation of my adventure areas opened for access. Those places include the Snow River and Nelly Juan accesses. I spend a lot of money each year both summer and winter on lodging, fuel, and food. I'm sure that the local business along the Chugach would also love to see the economic flow continue throughout the years to come. Thank you.
