First name: Justin

Last name: McKay

Organization: Ak Snow Shredderz 2.0

Title:

Comments: I have lived in Alaska all of my life, and have been riding all of these areas affected since I was a child. Please don't listen to these bonehead tree hugging lower 48 people that want to shut down our forest for motorized use. This is not just recreational snow Machining that we have at stake here this is where people hunt in the summer time for subsistence to feed their family! I support option B and hope you realize that opening up more land could be very valuable to our economy in the future!

Please think of our children I would like them to be raised as I was enjoying what the Wilderness of Alaska has to offer.
