Comments: I do not support closing any area or limiting access for recreational use of motorized vehicles for the public. The majority of the public who utilize these areas for recreational use whether with motorized vehicles or on foot are good stewards of land and are the main supporters of preserving these natural areas for continued use and future generations. Closing any area will diminish the opportunities for the public to use and enjoy all this state has to offer. Yes there are the few individuals who take advantage of these privileges but they are few and far between and the rest of public who utilize these areas will continue to self govern and make others aware of the importance of preserving these areas.
