Comments: I do not support reduction of motorized recreation within the CNF. Any further restriction would just be a knee-jerk reaction to other issues. I myself have been using such land for many years and now have the opportunity to bring my children into these beautiful remote areas of Alaska. Areas like this is why live in Alaska. Taking this away from existing and upcoming generations is just absolutely absurd. I urge you to actually look at this plan for Alaskans, the ones living here and paying taxes to enjoy this beautiful place we live in.
