Comments: I have lived in Alaska for 33 years. I have ridden snowmobiles in the Chugach for 30 of those years. I have been fortunate to be able show my children as well as numerous people a part of Alaska that cannot be experience any other way. A large majority of the Chugach is already restricted to non-motorized use, and what's left should remain intact, if not expanded, for future generations. Please do not restrict our ability to enjoy our magnificent state via snowmobiles.
