Comments: Being born and raised from Alaska the mountains and the vast beautiful country we have over many other places really always lead me to always come back home and enjoy gods country. The motorized access has been a very important part of my life and many other friends and families life's. Will I say everyone is perfect? No. However as a whole I think anyone who truly Cherishes Alaska and the access we have do a darn good job of picking up after others and staying on the same page. To close down the motorized access would be a true shame and would affect many people. Please don't close down our areas that we are so passionate for.
