Comments: I am in support of plan B with you emphasis on opening up more terrain for all users. These lands are ours and everyone deserves access to them and being able to enjoy them. I am a frequent user of the chugach both summer and winter for both motorized and non motorized and I'd hate to see us Alaskans lose access to our lands. We can share the land,there's plenty of it out there I don't think any group should be limited to where they can go. With special emphasis on snow machines I see no reason why they should be restricted to where they can travel. If there is adequate snow cover why should bthey be restricted? There is no restriction on hiking and you can go skiing/snowboarding in any amount of snow and they do more lasting damage to the land than snow machines do.
