Comments: Please DO NOT SHUT ANYMORE RIDING AREAS DOWN. As Alaskans these lands we ride, such as lost lake, turnagain, placer, etc, are apart of our culture and have been for at least a century. I personally ride these places every winter and would like to continue to do so, and allow my children to continue to do so when that time comes. These places hold strong meaning literal and continental to all of us as Alaskans. We need these places to ride so we can teach our children and children's children about the importance of conserving the land we love so much. With all that said. Please please keep our riding areas open and accessible to the wonderful LOCALS of this beautiful state. Thank you.
